

BCRG update 6 2012, Calling all Brooklyn Industries, May 16 BCRG meeting

1) Calling all Brooklyn industries!

Our planning for the May BCRG meeting (16 May) is not proving fruitful: we are finding it difficult to get industry reps who are available to present on the night. This is the first time that we have been unable to fill this important part of the agenda.

This is a great opportunity for **you** to let the community know about your company's initiatives to reduce dust, noise or odour. It would involve a short presentation (up to 10 minutes), and then participation in our question/answer/discussion panel alongside other speakers for the night.

Previous industry speakers at BCRG have found it to be a very worthwhile experience in building positive relationships with the community and promoting their initiatives. Some industries have used it as an effective means of providing information about a proposal that they will later seek formal feedback on.

If you would be prepared to speak, please contact jen@kismetforward.com.au / 0418 373 352 or Andrea (eo.bcrq@gmail.com) asap.

Thank you!

2) BCRG Community Forum

The next BCRG forum is Wednesday, May 16th, 2012 at 6.00pm for a 6.30pm start, at the Brooklyn Community Centre, Cypress Avenue Brooklyn.

Thank you

Andrea Mason

Executive Officer

Brooklyn Community Reference Group
