

# Stockpile Update

# Stockpiles update

## **Delta has lodged amended planning permit with City Planning**

- Stockpiles reduced in accordance with planning permit to 8m.
- Formalising landscaping of bund walls
- Improved on-site drainage

## **City Circle close to lodging amended planning permit**

- Reduction in height of bunds & stockpiles occurring
- Formalising landscaping of bund walls consistent with MW plans
- Pre-lodgement meeting has occurred & amended application to follow

# Stockpile Update Continue

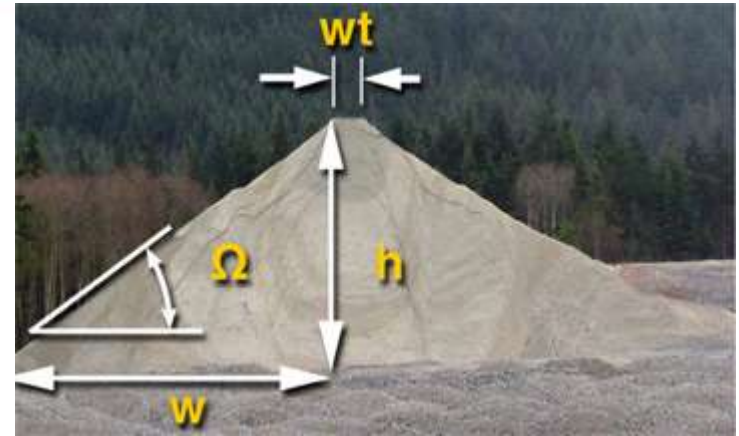

## **Sunshine Groupe has provided preliminary plans to Council**

- Additional detail still required
- Amended planning permit application to made within month
- Meeting scheduled to discuss outstanding req's & time-frames
- **Council and EPA continuing discussion to improve situation**

# Future management tools

- Discussion with EPA on practice notes or guidelines
- Practice notes generally not retrospective and requires direction by Minister for preparation
- Guidelines are not enforceable and not retrospective. Should be prepared by Authority with expertise in this field.

# Existing Stockpile Operators

- Operators with stockpiles operating under a legitimate planning permit *not existing use rights*.
- Practice Notes or Guidelines likely to be applicable to new operations on new sites.
- Council to continue to work with operators and interagency discussions to see improvements on the ground.
